Intro

I am Santiago Santos, an Industrial Engineer with experience in 3D CAD modeling through the Autodesk Inventor Software. My passion for designing has allowed me to create some solutions for different applications.

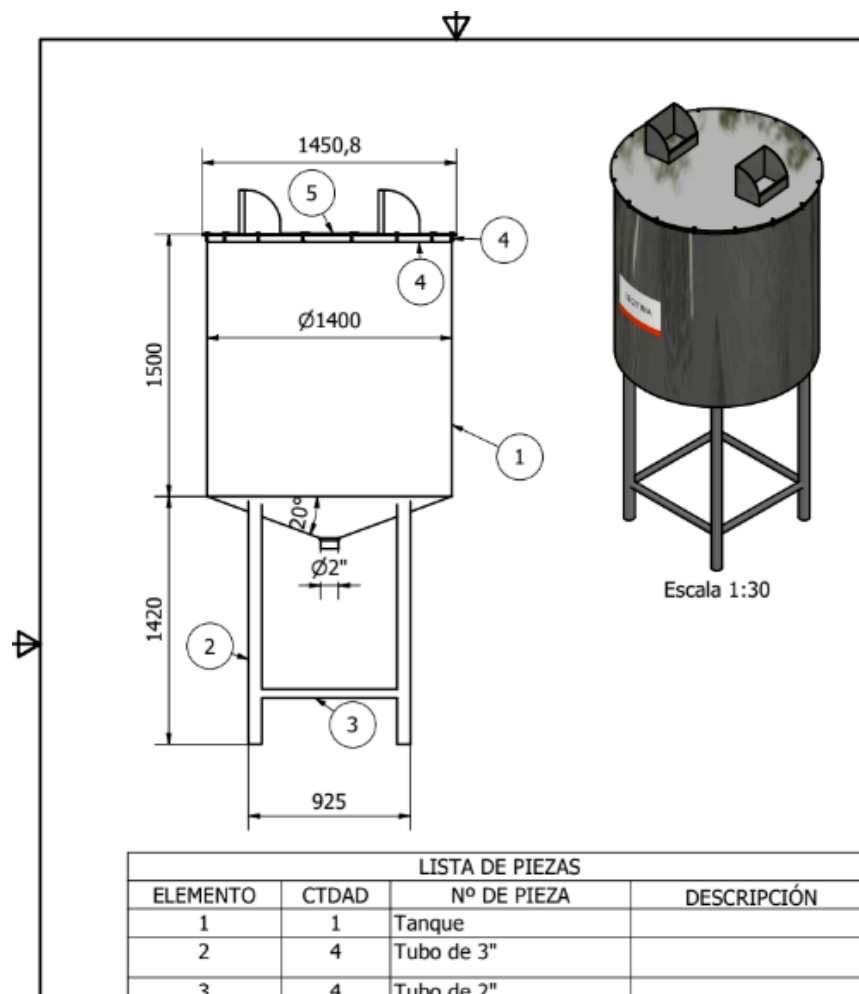

Projects list

1. Vapor Densifier System Optimization
2. Reclining sofa
3. Crank box with gear system
4. Stainless steel tank
5. Feed cone hopper
6. Enginer cylinder head cover
7. Work Table
8. Double way valves and transitions
9. Spool and transitions of production line

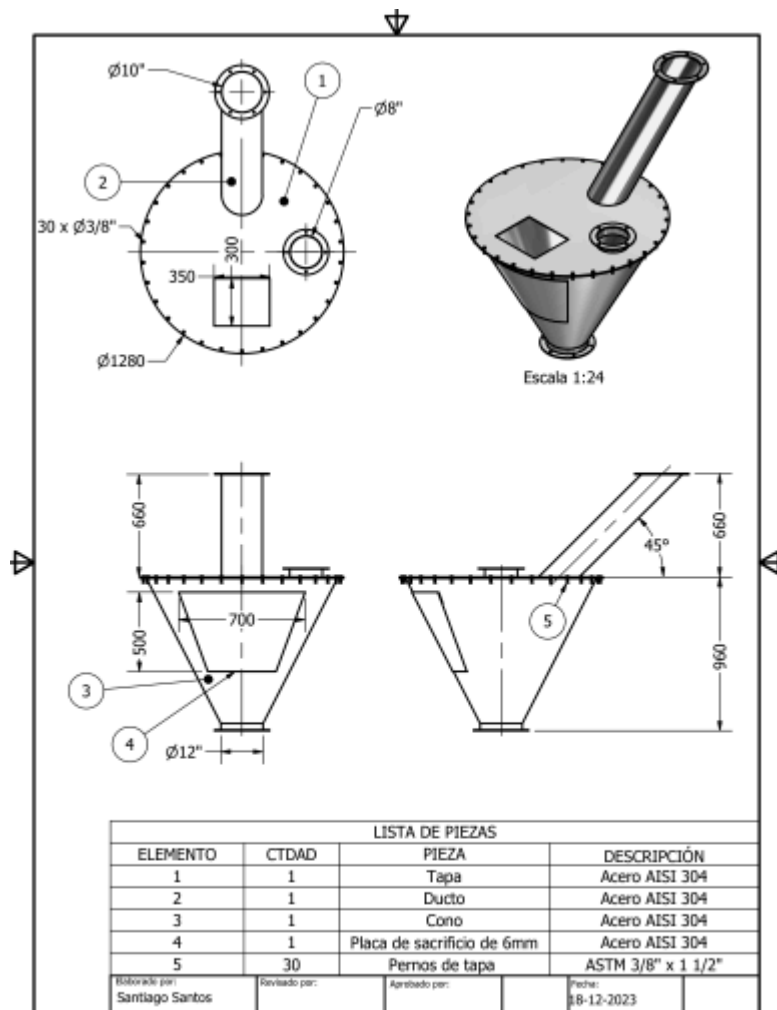

3. Crank box with gear system

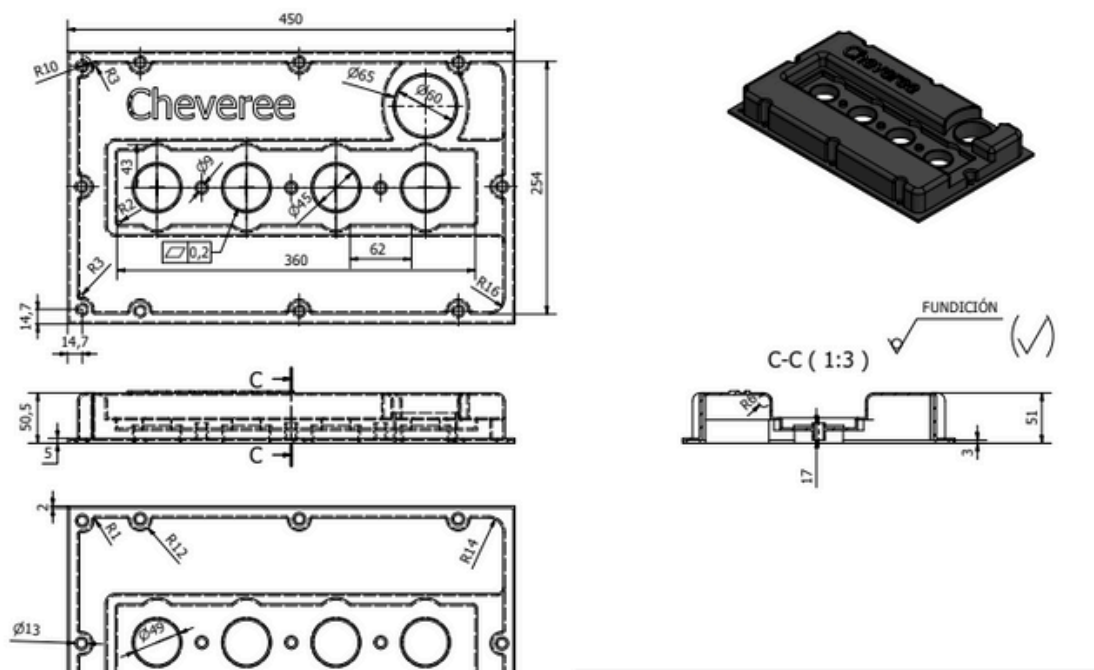

4. Stainless steel tank

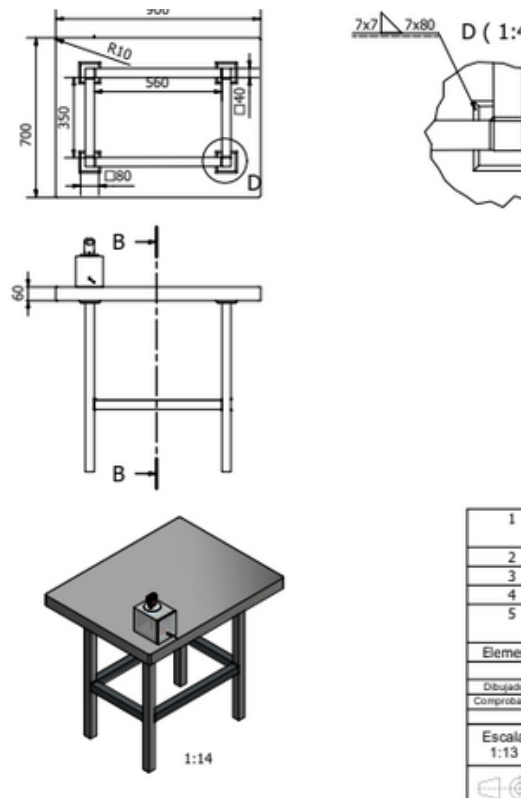

5. Fedd cone ho

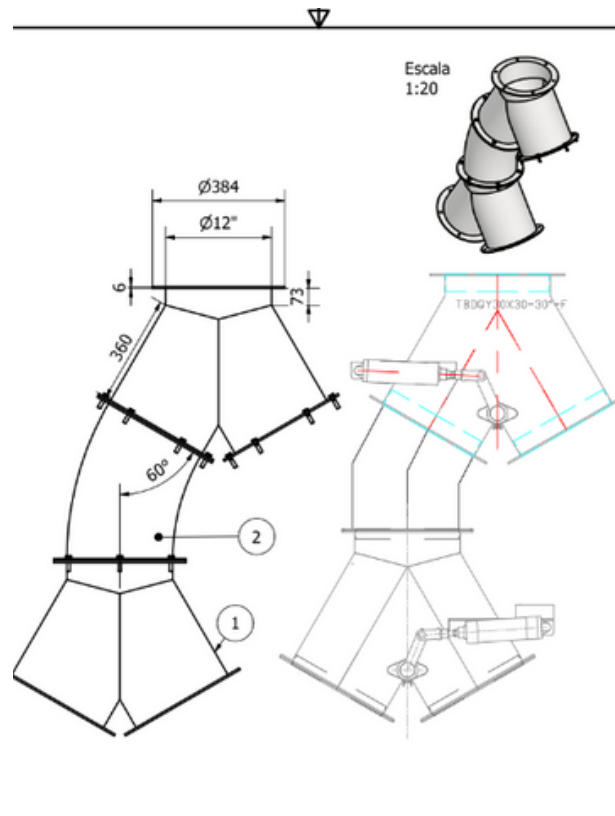

6. Engine head cover

7. Work table

8. Double way valves and transitions

9. Spool and transitions of production line
